

NEOS

Sponsoring 2016

Sponsoring - about

Become a sponsor!

and be a part of the first Neos Barcamp not only in Hamburg but in the **world**.

Inspiring sessions from the Neos core team members, networking with and learning from fellow developers.

What is a Barcamp?

A Barcamp is an open event. The participants provide the topics and schedule the workshops at the beginning of the day.

It gives the opportunity to learn new things, discuss fascinating topics, meet experts and ask questions.

NEOS

Sponsoring

Sponsor benefits

As a sponsor you do not only support the Neos Project and the Barcamp idea. You also profit from your investment due to the prominent audience and great contacts that are participating. All sponsors will be named appropriately throughout all marketing efforts and during the camp.

Why sponsor?

The Neos Barcamp is not a profit event. It is organized by a volunteer and financed by sponsors. Location, catering etc. are paid for with the sponsored money.

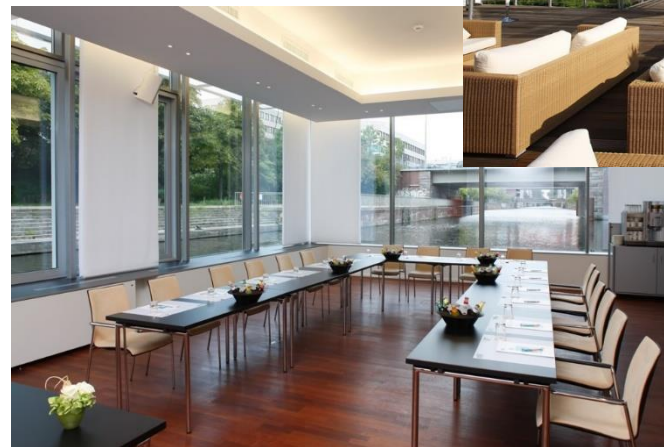

NEOS

Sponsoring - Location

A special event needs a special location

Rumor has it that Hamburg has more bridges than Amsterdam or Venice. But why cross the water when you can also work ON the water. With Kai 10 we found a very exceptional location. A house boat that functions as an event location.

NEOS
